

NALC Health Benefit Plan Formulary Drug List

The **NALC Health Benefit Plan Formulary Drug List** is a guide within select therapeutic categories for clients, plan members and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These formulary brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. **Call CVS Caremark at 1-800-933-NALC (6252) to see if your drug is on the NALC Health Benefit Plan Formulary Drug List.** Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list. This list represents brand products in CAPS and generic products in lowercase *italics*.

PLAN MEMBER

Your benefit plan provides you with a prescription benefit program administered by CVS Caremark. Ask your doctor to consider prescribing, when medically appropriate, a formulary medicine from this list. Take this list along when you or a covered family member sees a doctor.

Please note:

- For specific information regarding your prescription benefit coverage and copay¹ information, please visit www.caremark.com or contact a CVS Caremark Customer Care representative at 1-800-933-NALC (6252).
- CVS Caremark may contact your doctor after receiving your prescription to request consideration of a drug list product or generic equivalent. This may result in your doctor prescribing, when medically appropriate, a different brand-name product or generic equivalent in place of your original prescription.
- Any brand drug for which a generic product becomes available may be designated as a nonformulary product.

HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand name on this list.

Please note:

- Generics should be considered the first line of prescribing.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage.
- The member's prescription benefit plan may have a different copay for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to www.caremark.com to check coverage and copay information for a specific medicine.

FOR YOUR INFORMATION: Generics should be considered the first line of prescribing. This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. Any brand drug for which a generic product becomes available may be designated as a nonformulary product. The member's prescription benefit plan may have a different copay for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to www.caremark.com to check coverage and copay information for a specific medicine.

* The preferred alternative products in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.

§ Generics are available in this class and should be considered the first line of prescribing.

¹ Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

² An Accu-Chek or OneTouch blood glucose meter will be provided at no charge by the manufacturer to those individuals currently using a meter other than Accu-Chek or OneTouch. For more information on how to obtain a blood glucose meter, call toll-free: 1-800-588-4456. Members must have CVS Caremark Mail Service Pharmacy benefits to qualify.

³ For safety reasons, to prescribe Lotronex, the physician must be enrolled in the Prescribing Program for Lotronex. Physicians must understand the benefits and risks of treatment with Lotronex for severe diarrhea-predominant IBS, including the information in the Prescribing Information, Medication Guide and Patient-Physician Agreement for Lotronex. To enroll or for more information on the Prescribing Program for Lotronex, call 1-888-423-5227 or visit www.lotronex.com to complete the Physician Enrollment Form.
