*Generic drug coverage shown above for those generic drugs not available at a reduced cost as listed on our NALCSelect, NALCPreferred, or NALCSenior Generic Drug Lists.

**All specialty drugs require prior authorization. Specialty drugs, including biotech, biological, biopharmaceutical, and oral chemotherapy drugs are generally defined as high-cost prescription drugs that treat complex conditions and require special handling and administration and can cost thousands of dollars for a single dose. NALC's Advanced Control Specialty Formulary utilizes step therapy for certain specialty medications. We require the use of preferred drugs before non-preferred specialty drugs are covered. Our Advanced Control Specialty Formulary focuses on biologic therapy classes that have multiple products with prescribing interchangeability based on safety and clinical efficacy. Step therapy uses evidence-based protocols that require the use of a preferred drug(s) before non-preferred specialty drugs are covered. Call CVS Specialty™ at 800-237-2767 to obtain prior approval.

NALCSelect Generics

The amount you pay for a 90-day supply of an NALCSelect generic medication purchased through our Mail Order program or at a local participating CVS Pharmacy through our Maintenance Choice Program is only \$5 or only \$4 if Medicare Part B is your primary payor. Regular retail coinsurance and mail order copayment amounts apply for generic medication not on the NALCSelect Generic list. At this printing, the NALCSelect Generic list includes the following:
